**MANUFACTURER'S CERTIFICATE**

The moulded INKA pallet packing was manufactured in the European Union within the last 3 months and has not been pre-used.

We confirm that the moulded INKA presswood pallets (particle board) destined to be exported to **SAUDI ARABIA** by our (reseller's) client / distributed via our reseller :

*Name of exporter :* .....

*Address :* .....

*Container no. :* ..... *Invoice no. :* .....

*No of pallets :* ..... *Shipping mark or brand :* .....

*Ship :* ..... *Port of Loading :* .....

are manufactured according to the WERZALIT process, in the same way as chipboard, plywood or particleboard. After drying the wood at 300 F degrees (150 °Celsius) to a moisture content of only 4 %, it is moulded in addition with synthetical binder under a pressure of approx. 1300 psi (800 tons) and 400 F degrees (220 ° Celsius). This moulding process can not be survived by any living plant pests.

Therefore, these pallets are not considered as solid wood. They are considered as heat treated particle board.

**We confirm that these moulded presswood pallets are heat treated and totally free from bark and live plant pests !**
